KNOW YOUR PRODUCT

Welcome to The Bleeding Edge

If there's one word that describes Bloody Gaming, it's innovation. Featuring exclusive Light Strike optical micro-switches for split-second response times, 1:1 raw input, and Ultra-Core software for advanced tunning - all the tools you need to win and the customization options that'll make you stand out from the crowd are right in your hands.

Zero Latency, Fastest Response

Light Strike Micro Switches and Full Optical Wheel Provide Friction-free tactile actuation, blazing fast speed, and a hairline trigger to keep you one step ahead of your opponent.

The Precision Decision

Using our world-class Ultra-Core engine, Bloody Mouse Software lets you fine-tune your gameplay experience for added control over your sensitivity or create custom macros and scripts to keep you one step ahead of your competition.

Built-In 160K Memory

Built-in 160K memory applicable for use driver-free.

2 Thumb Side Buttons

The 4th and 5th thumb side buttons are preset as backward and forward functions. In game-play, it will be the functions of the game settings.

Power. Control. Speed. Precision

Claw your way to victory with support for various grip types. Wield your gear with extreme confidence, thanks to our gaming grade optical sensor engine for a true 1:1 raw input.

Ultra HD 12000 CPI

Adjustable resolution up to 12000 CPI, designed for various screen demand preference.

No Double Click

The output is zero-bouncing, improves metal switch double-click issue.
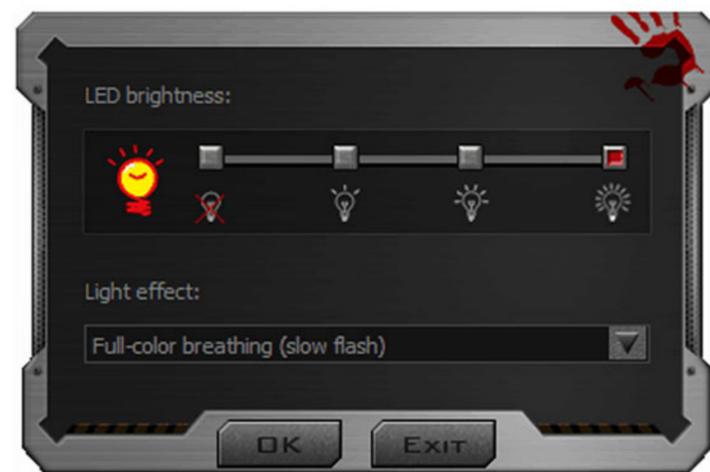

Metal X'Glide Armor Boot

Armor boot eliminate friction on nearly any surface for smoother motions, precise cursor movements and improved accuracy.
