

EVOLVEO wireless water level detector for Sonix

Water level detection, easy pairing with alarm.

The extension of your alarm system can be easily paired with the EVOLVEO Sonix or EVOLVEO Alarmex main unit.

1) Specification

- Water level detector, sends a signal to the control panel when the float is raised
- The power switch may extend the battery life
- The button on the detector can be used to trigger an alarm manually
- Integrated antenna
- Power supply 1x CR2032

2) Description

1. ON / OFF
2. Alarm button
3. Indications
4. Float
5. Sensor

1. Detector in idle mode
2. Detector in activated mode - the water level has raised the float and the sensor is sending a signal to the control panel.

3) Pairing

Switch the Sonix control panel to pairing mode, press the button on the detector or manually lift the float to the upper position, the control panel will confirm the receipt of the code.

4) Use

The detector is suitable, for example, as protection in the bathroom as a warning against water leaking from the washing machine. The detector can be placed, for example, in basements as an indication of rising groundwater.
