13 sensors  
HEPA filter  
2 600 mAh battery

## EVOLVEO RoboTrex H5

### ROBOTIC VACUUM CLEANER WITH WATER WET MOPPING FUNCTION

An intelligent robotic vacuum cleaner that automatically moves around the floor and cleans without any help. It easily crosses over the floor transitions. It is equipped with a number of sensors to protect it from falling off the stairs. After cleaning is done, it automatically finds the charging station and starts to charge itself.

#### Perfect cleaning

The vacuum cleaner has an option of water wet mopping with microfibre cloth and a 250 ml container ensures a stable flow of clean water.

#### The latest high-capacity battery

The RoboTrex H5 can work longer thanks to its high capacity 2 600 mAh battery. This is one of the most advanced batteries that does not require formatting. The vacuum cleaner is equipped with a special protection that stops charging the battery when it is fully charged so the battery cannot be overcharged. The battery will stay in good condition much longer.

#### HEPA filtration

The HEPA filter helps to capture even the finest dust, allergenic mites or animal allergens. It also prevents small dust particles from leaking back into the air. Cleaning and maintenance of the vacuum cleaner is very simple thanks to bag-less operation.

### Specifications

- simple one button operation
- water wet mopping option with an XXL mop
- dry mopping option with an XXL mop to remove fine dust
- high capacity 2 600 mAh battery
- height of only 75 mm
- operating time up to 110 minutes per charge
- reliable powerfull 22 W motor
- quiet operation, less than 65 db
- automatic return to a charging station
- automatic adapting to multiple surfaces (floating, tiling, linoleum or low rugs)
- infrared remote controller with LED display
- schedule cleaning at the specified time
- two-level filtration: primary filter and HEPA filter to capture even the finest dust and dirt
- many accessories in the package
- bagless operation
- simple maintenance and operation
- 4 cleaning programs - automatic, scheduled, spot and circular motion
- pair of extra long brushes for vacuuming in the corners
- container capacity of 0.3 litre
- 10 infrared sensors (against impact damages)
- 3 infrared sensors (against falling from the stairs)
- diameter of 300 mm
- height of 75 mm
- weight 2 kg

### Package content

- EVOLVEO RoboTrex H5, robotic vacuum cleaner (wet wiping and charging station)
- water tank for wet mopping (250 ml)
- dust tank for vacuuming (300 ml)
- infrared remote controller with LED display
- charging base
- 230 V power supply
- HEPA filter
- mopping module with mopping cloth, size XXL
- spare microfibre cloth, size XXL
- spare side brushes, 2 pcs
- cleaning brush
- user manual
