EVOLVEO RoboTrex H6

ROBOTIC VACUUM CLEANER WITH WET MOPPING FUNCTION

An intelligent robotic vacuum cleaner that automatically moves around the floor and cleans without any help. It easily crosses over the floor transitions. It is equipped with a number of sensors to protect it from falling off the stairs. After cleaning is done, it automatically finds the charging station and starts to charge itself.

Three mechanical buttons for easy operation

The control panel on the machine allows you to start automatic cleaning, spiral cleaning, or command the vacuum cleaner to return to the charging station without searching for the remote control.

Pair of brushes for superb cleaning result

Thanks to the side brush, Robotrex H6 can also clean areas around the furniture, along the walls, corners of the room and other hard-to-reach places. The pair of rotating brushes, which is located in the cleaning head, efficiently collects dust and large dirt from the floor.

Modern BLDC engine

The mounted BLDC engine features a long operating life, higher reliability, quieter operation and more economical operation than conventional engines used in competing models.

HEPA filtration

The HEPA filter helps to capture even the finest dust, allergenic mites or animal allergens. It also prevents small dust particles from leaking back into the air.

Specifications

- Three mechanical buttons for easy operation
- Modern 20W BLDC engine with a long operating life
- Wet mopping option with an XXL mop
- Dry mopping option with an XXL mop to remove fine dust
- High capacity 2,600 mAh battery
- Height of only 75 mm
- Operating time up to 110 minutes per charge
- Automatic charging via the charging station
- Quiet operation, less than 62 db
- Automatic adapting to multiple surfaces (floating, tiling, linoleum or low rugs)
- Infrared remote control with LED display
- Sensors against falling from the stairs
- Schedule cleaning at the specified time (delayed cleaning)
- Two-level filtration: primary filter and HEPA filter to capture even the finest dust and dirt
- Abundant accessories
- Bag-less operation
- Easy maintenance
- Simple to put into operation and run
- 4 cleaning programs - automatic, circumferential, circular and scheduled
- Pair of extra-long brushes for vacuuming in the corners
- Container capacity of 0.3 litre
- 10 infrared sensors (against impact damages)
- 3 infrared sensors (against falling from the stairs)
- Diameter of 300 mm
- Height of 70 mm
- Weight 2 kg

Package content

- EVOLVEO RoboTrex H6
- Water dispenser for wet mopping (250 ml)
- Dust container for vacuuming (300 ml)
- Infrared remote control with LED display
- Two batteries for remote control
- Charging base
- 230V power supply
- HEPA filter
- Mopping module with mopping cloth, size XXL
- Spare microfibre cloth, size XXL
- Spare side brushes, 2 pcs
- Cleaning brush
- User manual
