Primary headline

The comfortable way to type.

Secondary headline

Type in a more comfortable position with Microsoft® Natural® Keyboard Elite.

Tag line/descriptor

Designed for Your Comfort

25-word description

To design a more comfortable keyboard, Microsoft conducted extensive ergonomic and usability research. The result is the Microsoft® Natural® Keyboard Elite. Its split, gently sloped shape encourages a natural hand position—so you can type more comfortably.

Features/benefits

- Type in a relaxed posture—the Natural® Keyboard Elite allows you to place your hands, wrists, and forearms in a naturally comfortable position.
- Rest your hands in a natural position—the built-in palm rest provides a comfortable place to lay your hands when you're not typing.
- Organize your desktop efficiently—the Natural® Keyboard Elite fits easily on your desktop and in keyboard trays.
- Choose the most comfortable typing position by adjusting the keyboard legs to accommodate your body, chair, and desk size.
- Take advantage of compatibility with the MS-DOS® and Windows® operating systems.
- Save time with easy shortcuts to Windows® 95 and Windows 98—open the Windows Start menu with a single touch.
- Connect easily to any PC with a Universal Serial Bus (included in the box) or with a PS/2 port.
